**Odisha Mail Id-jeeta\_94@rediffmail.com, Jeeta12594@gmail.com**

## Words from the Secretary ....

*We are delighted to announce that another year has passed and we are getting the occasion to present the Annual Report of for the year 2018-19, which is undoubtedly progress report cared to be shared with all the stakeholders we are involved. It gives us immense pleasure to reveal that dreams of last twenty four years to work for marginalized, deprived, excluded and vulnerable sections mostly tribal, dalits and women in Anugul and Deogarh districts of Odisha are shaping up slowly and steadily.*

*We feel proud that we have not deviated from its community led approach to work on multifarious activities focusing on Livelihood, Water, Health & Sanitation and Women Empowerment following our vision and mission.*

*We take this opportunity to thank all the associated donors, likeminded organizations, our network alliance partners, community people, Volunteers and the committed staff who have joined hands with JEETA in its journey of development that has created a visible impact on the work and life of its target people.*

*We expect to continue our journey with our target constituencies with innovative methods and programmes.*

*With warmth of regards*

**Anupama Rout,**

**Secretary**

**JEETA**

## ABOUT US

Joint Endeavour for Emancipation Training & Action for women (JEETA), as not for profit organizations, bloomed in the year 1994 when a dedicated group of people

### Vision

Seeing a just Society where every individual capable of guiding her/ his own destiny with full stretch her/ his personality

hailed from different streams with social work bent of mind came together with the conviction to work for the upliftment of the marginalized section who are at the bottom of the socio-economic ladder in the remote villages of Anugul and Deogarh Districts. From that JEETA has not looked back and marched forward. Since its inception it has been

dealing with the issues related to Livelihood, Health, Water Sanitation & Hygiene, Migration, Local Self Governance and Gender Discrimination,

It got registered under Societies Registration Act of 1860 bearing No.19589/21 during the year 1994-95. Subsequently it has been registered under Foreign Contribution Regulation Act bearing the number 104850007 during September 2003. JEETA has also obtained the registration under 12 A & 80 G of the Income Tax Act during 2007 as well as PAN card no. AAAAJ3195Q and TAN BBNJ00598D for fulfilling the tax formalities

### Core Values

- Working in the team
- Transparency
- Accountability to the target constituencies
- Partnering with communities and other like-minded groups as well as individuals.
- Mutual respect
- Secularism
- Trust and Appreciation
- Integrity

JEETA is currently operating with its Head Office at Pallahara of Anugul District and extended project office in Prakrutipalli of Barkote block of Deogarh District. All of its programmatic interventions revolves round the basic approach of partnering with community focusing on their skill building to protect, preserve & manage the local resources and assert their rights to arrest inequality, discrimination and exploitation.

### Mission

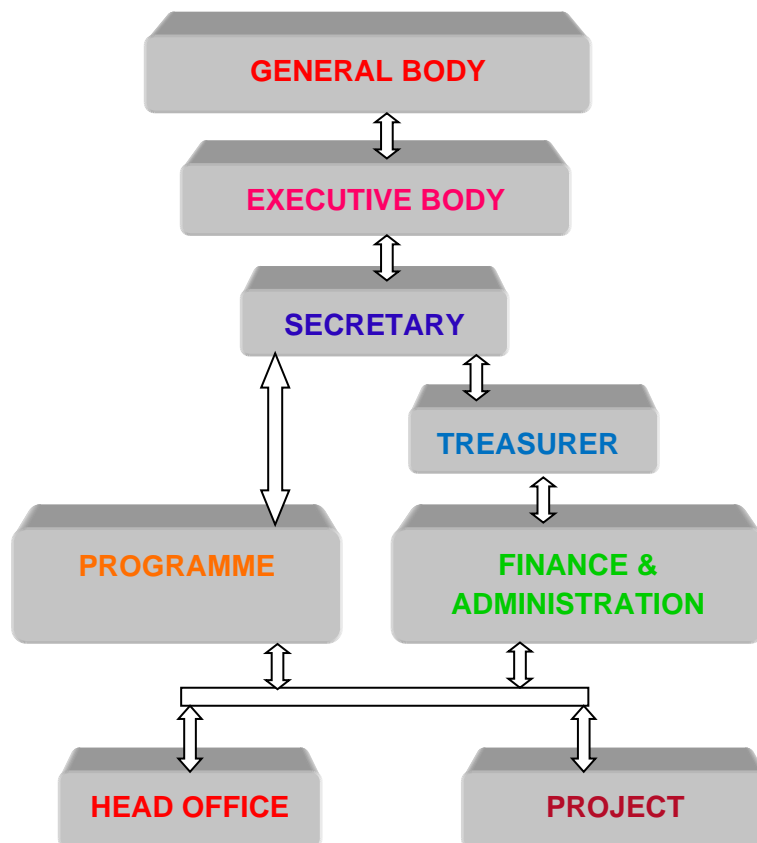

To empower the women and other marginalized section of the society for their 'sustainable development.'

## Our governance system

Bye-law of JEETA as empowered General Body as the supreme authority with Governing Body (Board) in down the line, constituted with 5 office bearers headed by the Chairperson. The other office bearers of the Board include Vice Chairperson, Secretary, Asst. Secretary and Treasurer. The Secretary acts as the Chief of the organization, responsible for day-to-day functioning as well as for programme implementation being helped by Programme/project staff and Treasurer for Finance & Administration. The Bye-law of the organization is there which elaborates the role and functional modalities of General Body, Office bearers and other members for effective governance of the organization. The Board meeting is usually conducted twice a year to review the progress and decide further course of action. The Annual General Meeting is conducted once in every year taking all members to approve

operational plan, budget, review the accomplishments and take major policy decisions.

## Our operating structure (Organogram)

## Our area where we work and Our people with whom we work

JEETA has physical existence in 240 villages of 27 GPs of Barakote and Palalaharaa Blocks Deogarh and Anugul districts of Odisha. It is relevant to mention

that both the districts are situated adjacently in the central part of the State with rich mineral and forest resources, which are now depleting at an alarming rate due to mining and other industrial activities leaving the lives and livelihoods of the indigenous habitants into the zone jeopardy. This is to mention JEETA is working with total 30760 families having

Target area demography															
District	Block	G.Ps	No. of Villages	House Holds					Population					Economic status of HHs	
				SC	ST	OBC	GEN	TOT	SC	ST	OBC	GEN	TOT	BPL	APL

## OUR PROGRAMMES

Considering the local level issues and problems, JEETA has continued to intensify its effort on the sectors of Livelihood, Water, Health & Sanitation and Women Empowerment along with capacity building of the target communities within the broad framework of our vision and mission.

The major accomplishments during the year 2018-19 are succinctly articulated below.

## I. Enabling the target communities to access safe improved water, sanitation & hygiene (wash) facilities

Envisioning WASH secured Deogarh District, JEETA has established partnership with Jalseva Charitable Foundation(Water Aid) since 2014-15. With the support and knowledge guidance from District Water & Sanitation Mission Deogarh, it is undertaken a project to enable the communities to access safe improved water, sanitation & hygiene (wash) facilities covering 7943 families with 146073 population in 240 villages of Barkote Block, focusing on the following aspects:

- Sensitizing the people and constructing toilet with the facility for Persons with disabilities (PwDs)
- Reconstruction and renovation of damaged toilets
- Orientation to School cabinets, Teachers and School Management Committees (SMCs), PRI members and other duty bearers on WASH.
- Participation and putting agenda on WASH deprivation in Palli Sabha/Gram Sabha
- Quarterly follow up with PRI members
- Wall painting of baseline map with multi-vulnerability marking
- Models demonstration (Stream based PWS) in one intensive GP
- Developing standard O&M system for WASH in AWCs
- Interface of PwD forum with DWSM for resource allocation towards PwD accessible toilets
- Developing Hygiene promotion teaching learning materials, hygiene promotion calendar

Accomplishments	
Programmes	Achievements
Training of frontline cadres/ volunteers at community level	Training programmes conducted and 258 community level volunteers and 5 staff got trained on WASH
Participation and putting agenda on WASH deprivation in Palli Sabha/Gram Sabha	Participated in 129 pallisabhas and 16 Gram sabhas
Training of PRI members on WASH Planning (focusing WASH security to Bhuyan communities)	6 trainings conducted with participation of 200 PRI members
Wall painting of baseline map with multi-vulnerability marking	16 wall paintings done in GP level
Quarterly follow-up meeting with PRI association at block level	6 meetings conducted with participation of 24 Sarpanches & 100 ward members
Training of engineers and masons on inclusive toilets	32 engineers and masons are trained on construction of inclusive toilets
Village level meeting/ FGD for hygiene promotion	362 meetings conducted on hygiene promotion at village level
Developing standard O&M system for WASH in AWCs	Developing Standard O&M system developed and demonstrated
AWC level hygiene sessions	1450 sessions on hygiene conducted at AWC level
School level hygiene sessions (including MHM)	206 sessions hygiene sessions (including MHM) in **** no of schools

It is worthwhile to mention that advocacy efforts such as: Liaisoning with Gram Panchayats, Block Level Officer, PD DRDA, Collector, Executive Engineer of RWSS are going on to ensure fund allocation for outreach village to construction & water. Despite of our sincere efforts there are PwDs yet to access toilet & water facilities.

## II. Enhancing food & nutritional security:

With a view to arresting the problems of food insecurity and nutritional deficiencies among the target constituencies a project titled, 'Enhancing food &

nutritional security through System of Rice Intensification (SRI) & System of Millet Intensification (SMI) has been implemented in 27 villages of Barkote & Pallahara Block of Deogarh & Angul District since last three years with the assistance of Jamsetji Tata Trust, targeting 2425 households with 12126 population.

<b>Accomplishments</b>						
<b>Coverage details in Kharif 2018</b>						
Crop	Barkote Block		Pallahara Block		Total	
	No of Farmers	Acres covered	No of Farmers	Acres covered	No of Farmers	Acres covered
SRI (Rice)	260	130	329	163.6	589	293.6
SRI (Aromatic Rice)	126	60.5	256	126.8	382	187.3
SMI (Millet)	113	54.2	343	167	456	221.2
<b>Total</b>	<b>499</b>	<b>244.7</b>	<b>928</b>	<b>457.4</b>	<b>1427</b>	<b>702.1</b>
<b>Coverage details in Rabi 2019</b>						
SRI (Rice)	-	-	91	44	91	44
SMI (Millet)	-	-	24	10.1	24	10.1
SWI (Wheat)	339	167	266	127.5	605	294.5
SCI (Pulses)	238	117	266	128	504	245
<b>Total</b>	<b>577</b>	<b>284</b>	<b>532</b>	<b>255.5</b>	<b>1109</b>	<b>539.5</b>

The introduction of method of System Intensification in rice, wheat, millet and pulses has resulted in significant yield whereas investment cost is lesser than in case of conventional method. It is very much appreciated by the local farmers, which is evident from the increasing of farmers and areas covered adopting this method in number year by year. The main strategies espoused to make this programme successful are mentioned below.

- Capacity building and handholding support provided to the farmers in the field.
- Application of organic manures.
- Timely input support of quality seeds and devices for weeding.
- Interface meeting of farmers with the agricultural experts for proper guidance
- Sharing of experiences among themselves

### III. Capacity building of the statkeholders:

Reproductive & Child Health (RCH) is one of the grey areas in the area which needs proper attention. Keeping this in mind, with the support of National Rural Health Mission, Deogarh, JEETA has continued its effort is to capacitate the Accredited Social Health Activists (ASHAs) who play a vital role of service providers in the community level. Details of the capacity building programmes undertaken in this reporting period are explained below.

Programmes	No.of programmes	Participants covered
Field training of ASHAs on screening of NCDs(Non Communicable Diseases)	3	75
Round III training of ASHAs on module 6 & 7	1	17
Round IV training of AHSAs	1	12
Induction training of ASHAs	1	10
Refresher training of ASHA SATHIs	1	6

Local Panchayat, is the vital institution and PRI members are the key players in the local self-governance system for ensuring community development activities. JEETA has taken a noble step to capacitate the local PRI members laying emphasis on women PRI members, and has established a District Resource Centre with the support and guidance of National Alliance of Women, Odisha chapter (NAWO) through DRDA, Deogarh. PRI members (Samity members, Sarpanchas, Naib Sarpanches and Ward members) of Barkote, Block of Deogarh District have been imparted with training and orientation programmes which are mentioned below.

Name of training	No.of programmes	Participants covered
Induction –cum- GPDP Training for sarpanches	1	30
Induction –cum- GPDP training for Panchayat samiti members	1	25
Induction –cum- GPDP training for Panchayat Ward members	8	268

Staff capacity building on different themes and issues is also one of the major organizational strategies. This initiative is intrinsic within the different programmes which enable the staff members to enhance their knowledge base to relate with the ground level situations and consolidate the lobby & advocacy efforts.

#### IV. Conducting different issue based campaigns:

Mass campaign is made in four villages of Pallahara Block to sensitization children and their parents on potential risks in job/work sites, child safeguarding & protection measures to be undertaken, Early marriage prohibition Act, Juvenile justice

Act etc. With the support of CARD Bhubaneswar.

Odisha Election Watch Campaign is launched In Angul District at the District Collectorate with the presence of PD DRDA, Deputy Collector, Asst Collector, DSWO, DIPRO, DEO, DCPO, Gouri along with College students, AWWs NGOs & other govt. Officials.

#### CONCLUDING REMARKS

We are proud to conclude that we have served to our target people meaningfully by addressing the local issues, exploring livelihood opportunities, converging with the Govt. line department, though our endeavour was not so enormous in this reporting period. More we work better we learn. Year by year we are enhancing our learning, skills and experiences by working for and with our communities We also vow to

continue work efforts in the direction of conserving local resources, empowering communities, reducing poverty, food insecurity, vulnerability in our target areas.

We express our sincere thanks to all our supporters such as: donors, community members, well-wishers, board members, staff and volunteers who have always been sources of inspiration for us and hope this will also continue in the coming years

### **STORY OF CHANGE MAKERS**

Nearly more than 30 years back, some of the villagers of Kadaldhi village of Barkote block of Deogarh district came out of the village due to scarcity of drinking water to settle down near a stream (Gadia) which was later recognized as Gadia village. It constitutes of only 16 families belonging to SC/ST (Schedule Caste & Schedule Tribes). Since its formation the inhabitants were using the stream water for drinking water and going for the open defecation near the stream making the water & sanitation condition very poor & unhygienic. It might be one of the contributory factors for the poor health condition of the villagers especially the children which came out as a major concern during the rural appraisal conducted by JEETA in the year 2017, Realizing the issue due to the effort of the villagers and the team members of JEETA, a village WaSH committee as decision making body to implement WaSH programme in the village. The villagers were sensitized and motivated and as a consequence by the end of January 2019, followings are achieved.

- Two sanitary wells are dug by mobilizing the support of Gram Panchayat and Water Aid. It is pertinent to mention that out of total expenses, 20% was contributed by the villagers through labour and local materials.
- One bore well excavated which is to be fitted with hand pump by the Grampanchat.
- Villagers promised for not use of stream water as drinking water.
- One water recharge pond is constructed with support of Gram Panchayat by utilizing MGNREGA fund.
- Resolution has been passed by villagers for O& M of newly created drinking water source.
- Individual Household latrine covering all the 16 households constructed with the support of GP by utilizing MGNREGA fund
- People are exercising the habit of disposing of solid and liquid waste.
- Women groups, who earlier concentrated on the single activity of thrift & saving, are now involved in WaSH activities.

The approach has been truly a participatory one, facilitated by JEETA with support of Water Aid and institutionalized by PRI department. However, the true key agents of change have been the women and adolescent girls who have emerged as local change makers. The village is now looked as model for other villages nearby.

## Millet Farmer Trishala Sethi the change agent for millet promotion

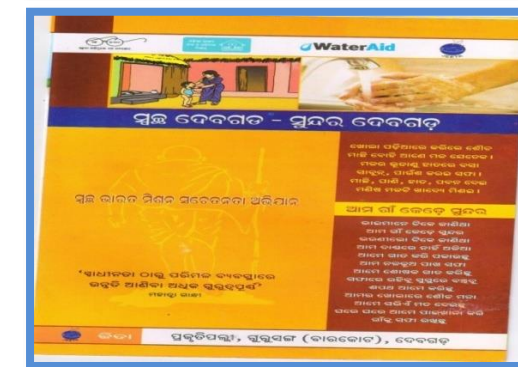

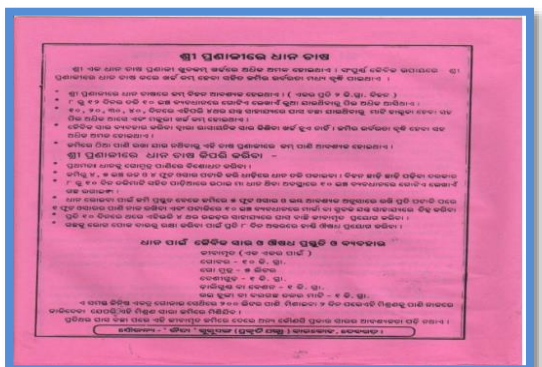

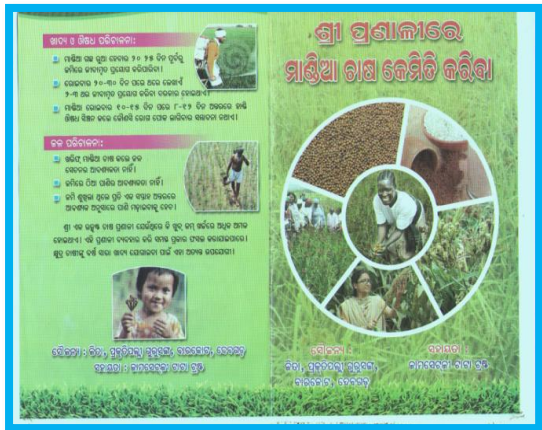

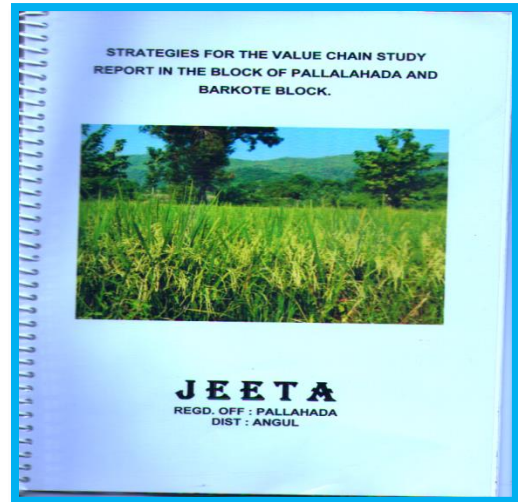

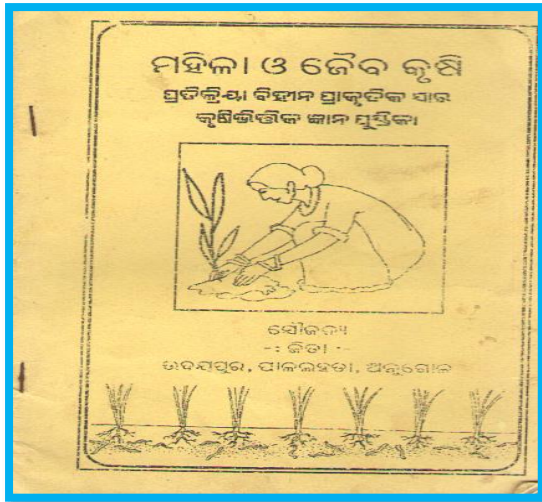

Name- Trishala Sethi,Village- Taldihi,G.P- Pechamundi,Block- Pallahara,District- Angul

Trishala Sethi a small farmer of Taldihi of Angul District. He belongs to SC community. There are 4 members in the family & depend upon agriculture and collection of NTFP. During the period of his grandfather his family involved in was growing various millets along with paddy cultivation. He came to know about SRI in village meeting organized by JEETA in their village. He became aware about the importance of this technique & also knew that SRI technique can be adopted in ragi cultivation also. When he knew about the nutritional value of ragi he decided to grow ragi adopting this technique which he left.

With the help of JEETA staffs Trishala learnt the process of seed treatment, preparation of organic fertilizer, pesticides and their use. Though he was adopting SRI for the first time, He took 0.2 acres of land for which he used 60 grams of ragi seeds. He treated the seed with cow urine & prepared seed bed. He transplanted the seedling in 10 inches spacing when it becomes 11 days. He transplanted single seedling but mechanical weeding could not possible because of water scarcity. He used only organic fertilizer (*jibamruta*) & compost. To prevent pest he also used organics (*handi oushadha*). Average 5 tillers 2 productive tillers came & he got 23 kg of ragi from that patch of land. According to him he is happy with this production. Since water scarcity was there & proper weeding could not done production affected. But due to use of organic pesticide, his crop was not affected with pest and diseases.
